

MOTOR COACH MODIFICATION DIAGRAM
Keyless Entry Module plus 30 Amp Power Relays
 2007 Model Year E450 Super Duty Cutaway
 2008 Model Year Itasca Cambria 29H

- Notes:**
1. OEM Lock / Unlock Switches will work even if Keyless Entry Module fails or is removed, so long as the two 30A SPDT power relays remain with the modification.
 2. Heavy lines indicate wiring to be 14 gauge minimum, others 16 gauge minimum
 3. Black OEM wires are cut in passenger side door near lock / unlock switch

2007 Ford E450 Door Locking System Modification to add Keyless Remote Entry Feature
