NOTE: To purchase Michelin or BF Goodrich tires for your light truck or passenger car, you must use an authorized commercial Michelin dealer that sells all three types commercial truck, light truck, and passenger car AND that accepts the Michelin Advantage Program.

Step 3. Contact the dealer to determine they have the tire that you want.

When you contact the Dealer to determine they have the tire you need for your RV, Passenger Car or Light Truck, make sure you ask for the five-digit MSPN number for the tire you are purchasing. And verify that you have the proper size tire for your vehicle.

You must provide this number to the dealer. You must also provide your e-mail address. Your FMCA membership number will act as your purchase order number.

Step 5. Register your credit card with Michelin.

After the tires have been installed, you will need to provide the dealer with your VISA, MasterCard or American Express credit card information to complete the transaction at the servicing dealership.

This information must match the card information you registered with Michelin corporate. The tires will be billed to your card by Michelin. Most dealers will charge you separate installation and labor. Any fees for mounting, balancing, and tire disposal are quoted by the servicing dealer and are not discounted by the program. The customer must also pay state and local sales taxes that apply in the jurisdiction in which the tires are purchased. NOTE: Once you have arrived at the dealer for service, walk around the coach with the writer or salesman. Note any existing damage to the coach and/or wheels.
